

Water Filter Pitcher

This water filter pitcher is designed for household use. It features a multi-stage filtration process to remove impurities and improve water quality.

Product Overview

Clean Water Solution

This water filtration pitcher is designed to provide high-quality purified water for household use. Featuring a convenient 3.5L total capacity and a 2.0L purified water output, it ensures a steady supply for daily needs. The system utilizes advanced carbon and resin filtration to effectively remove impurities, while the ergonomic handle and secure lid allow for effortless pouring and storage.
