

Water Filter Pitcher with Digital Display

This water filter pitcher is designed for filtering tap water in a home setting. It features a digital display, likely indicating filter life or water quality.

Product Overview

Clean Water Efficiency

This water purification pitcher combines convenient countertop design with advanced carbon and resin filtration technology. Featuring a built-in digital display to track filter lifespan, it ensures you always have access to high-quality water. Its compact 2.5L capacity is perfect for home or office use, providing 1.3L of purified water per batch.

Technical Specifications

Cartridge Life

150 L
