Product Overview

Innovative Cleaning Solution

This water-powered flow-through cleaning brush offers a professional solution for reaching tight and difficult areas without the physical strain of manual scrubbing. By utilizing water pressure for steady torque, it provides deep cleaning performance for vehicles, motorcycles, and boats while avoiding the mess of high-speed rotation. Each set includes two interchangeable brush heads, allowing users to select the appropriate bristle stiffness for their specific cleaning requirements.

Technical Specifications

Item Model Number	AD-02601
Product Dimensions	40 x 7 cm
Power Source	Water Pressure

Features & Benefits

Key Performance Metrics

2 heads

Interchangeable Heads

Core Advantages

Effective • Energy-Saving • Eco-Friendly • Detachable Head

Recommended Applications

Cars, Bikes, Boats, Pets, Wheels

Packaging & Logistics

Standard Packaging

- Blister Card
- Poly Bag
