

Water Pressure Booster Pump 250W

This water pressure booster pump is designed to increase water pressure in residential and light commercial settings. The 250W motor delivers a maximum capacity of 350 liters per minute and a maximum head of 60 meters.

Product Overview

High-Performance Water Pressure Booster

This water pressure booster pump is engineered to deliver reliable performance for both residential and light commercial water systems. With a robust 250W motor, it effectively stabilizes water pressure for homes, gardens, and small business facilities. Its versatile design ensures consistent flow and reliable operation, making it an essential solution for maintaining optimal water pressure throughout your property.

Technical Specifications

Maximum Flow Capacity

350 L/min
Max Capacity

Power Rating	250 W
Maximum Head	60 m
Suction Lift	27 m
Inlet/Outlet Dimensions	1-1/4" x 1" x 1"

Application

Recommended Applications	Residential, Light Commercial, Garden Irrigation, Pressure Boosting
