

Water Pump

This water pump circulates coolant within a vehicle's engine. It helps to maintain optimal engine temperature.

Product Overview

High-Performance Water Pump

This portable water pump is engineered for efficient fluid transfer, featuring a robust 40.2cc engine capable of delivering 1.45KW of power. Designed for reliability and ease of use, it offers a maximum lift of 35 meters and a flow rate of 15 cubic meters per hour. Its compact dimensions make it an ideal solution for various agricultural and industrial water management applications.

Technical Specifications

Max Power

1.45 KW
Max Power

Performance Capabilities

Metric	Value
Lift	35 m
Flow	15 m ³ /h
Suction Length	8 m

Engine and Build

Mating Engine	IE40F-6
Displacement	40.2 CC

Physical Dimensions

Weight

- Net Weight: 10.5 KGS
- Gross Weight: 10.5 KGS

Outlet Diameter	25 MM
Packing Measurement	400*330*390 mm
