

Water Pump for Irrigation and Drainage

This water pump is designed for agricultural and industrial applications. It is engineered for high flow rates and consistent operation, making it an ideal solution for water management needs.

Product Overview

High-Efficiency Water Pump

This robust water pump is engineered for reliable performance in agricultural irrigation and drainage applications. Featuring a powerful 4-stroke, air-cooled engine, it delivers consistent flow rates and high lift capabilities to manage water transfer efficiently. Its durable construction and portable design ensure it can withstand demanding environments while remaining easy to transport and deploy.

Performance Metrics

Key Performance Indicators

30 m³/h

Volume of Flow

20 m

Lift

6 m

Suction Depth

Engine Specifications

Engine Model	KBD168
Engine Type	4-stroke, Air-cooling, Single cylinder
Displacement	196 cc
Ignition/Starting Mode	Recoil Start
Fuel Tank Capacity	2.5 L

Physical Dimensions

Inlet/Outlet Pipe Diameter	50 mm
Dimensions (LxWxH)	525x395x455 mm
Weight (Gross/Net)	25 / 24 kg

Logistics

Container Loading Capacity

Container Type	Quantity
20GP	310
40HQ	720
