

Water Pump Pliers

These water pump pliers are available in sizes from 6 to 12 inches. They feature multiple material and handle style options including imitation forging or forged steel, with plastic stick or plastic handles.

Product Overview

Professional Grade Water Pump Pliers

These versatile water pump pliers are designed for high-leverage performance in demanding plumbing and automotive environments. Featuring a multi-position adjustment mechanism, the tool adapts easily to a wide range of pipe and fastener sizes. Engineered for reliability, these pliers combine durable steel construction with ergonomic handles to ensure maximum grip and operator comfort.
