

Water Purification Pitcher

This water purification pitcher features a clear reservoir and white plastic components. It is designed for improving water quality in home or office environments.

Product Overview

Professional Water Purification Solution

This water purification pitcher is designed for efficient water quality improvement in home or office environments. It features a high-capacity design with a 2.5L total volume and an integrated filtration system using carbon and resin materials. The pitcher is constructed from durable materials, including AS for the jug and ABS for the cover, ensuring longevity and ease of use.
