

Water-Resistant Work Bodywarmer Vest

Durable and versatile, this bodywarmer vest is designed for optimal comfort and functionality. Constructed with water-resistant fabric, it provides excellent protection against the elements and includes multiple pockets and reflective elements.

Product Overview

Professional Grade Bodywarmer

This durable and versatile bodywarmer vest is engineered for optimal comfort and functionality in demanding work environments. Constructed with high-quality, water-resistant ripstop pongee fabric with a PVC coating, it provides essential protection against the elements. Designed with multiple pockets for storage, a high collar for warmth, and reflective elements for safety, it is an ideal solution for outdoor work, construction, and tasks requiring core warmth and mobility.
