

# Water Transfer Pump

This water transfer pump is designed for efficient water transfer and boosting. It features a robust construction for durability and long-lasting performance.

## Overview

### Efficient Water Transfer and Boosting

This water transfer pump is engineered for reliable performance in domestic, irrigation, and industrial applications. Its robust construction and optimized hydraulic design ensure consistent water flow and pressure while maintaining energy efficiency. The compact footprint allows for straightforward installation and simplified maintenance in various settings.

## Performance Metrics

### Maximum Flow Rate

**35 L/min**

Max Flow

### Maximum Head

**35 m**

Max Head

### Suction Head

8 m

## Electrical Specifications

### Power Rating

100 W

### Voltage & Frequency

220-240V / 50Hz

### Rated Current

1 A

## Technical Details

### Ingress Protection

IP44

### Model Identifier

JET 100M

## Compliance & Standards

### Certifications

CE
