

# Water Transfer Pump

This water pump is designed for efficient water transfer and irrigation purposes. It features a robust engine with a yellow protective cover, ensuring durability and reliable performance.

## Overview

### High-Efficiency Water Transfer Solution

This robust water transfer pump is engineered for demanding irrigation and fluid movement tasks. Equipped with a reliable 7.5HP petrol engine, the unit offers excellent power output for high-volume water management. Its portable design, reinforced with a sturdy base and a convenient handle, ensures easy deployment and stable operation in various field conditions.

## Performance Specifications

### Engine Power

**7.5 HP**

Rated Power

### Model Specifications

Parameter	Value
Pump Model	STP30A
Engine Type	ST170F
Port Diameter	25.4mm

## Build & Construction

### Key Features

Petrol Engine, Metallic Housing, Portable Handle, Stability Base
