

Water Transfer Pump

This water pump is designed for drainage and irrigation applications. Its durable construction ensures reliable performance in demanding environments.

Product Overview

Professional Water Transfer Pump

This robust water transfer pump is engineered for demanding environments, offering reliable performance for agricultural irrigation and large-scale drainage needs. Its compact design features a durable, corrosion-resistant blue exterior with a protected electrical enclosure. Designed for high efficiency, it serves as an essential tool for professionals requiring consistent fluid movement in outdoor or industrial settings.

Technical Specifications

Core Applications

Agriculture, Irrigation, Drainage, Water Transfer
