

Water Transfer Pump

This water pump is designed for efficient fluid transfer in agricultural and irrigation systems. Constructed from durable materials, it ensures reliable performance and longevity.

Overview

Professional Water Transfer Solution

The H102 water pump is engineered for high-efficiency fluid transfer across agricultural and irrigation landscapes. Built with resilient materials, it provides the reliability needed for continuous operations in demanding environments. This versatile unit excels in water circulation, drainage, and large-scale irrigation tasks.

Technical Specifications

Model Identifier

H102

Applications

Primary Applications

Agricultural Irrigation, Water Circulation, Drainage Systems
