

Water Transfer Pump for Irrigation and Drainage

This water pump is designed for various applications, including drainage and irrigation. It features a robust construction with a grey pump housing, a blue motor, and green fittings.

Product Overview

Professional Water Transfer Solution

This high-performance water transfer pump is engineered for demanding irrigation and drainage tasks in agricultural and industrial settings. Featuring a robust construction with a reliable motor protected by a durable housing, this unit ensures consistent operation. Its design includes an intuitive clear lid for seamless inspection and simplified maintenance, making it an ideal choice for professional fluid management.

Technical Specifications

Key Features

- Robust grey pump housing
- Protective blue motor enclosure
- Green fitting accents
- Clear inspection lid for maintenance
- Stable mounting base

Application Areas

Agricultural Irrigation, Drainage, Swimming Pools, Water Transfer
