

Waterproof Coated Work Gloves

These waterproof work gloves are designed for tasks requiring hand protection in wet conditions. They feature a liquid-resistant coating and knit wrists for a secure fit.

Product Overview

Professional Hand Protection

These waterproof coated work gloves are engineered for demanding tasks that require superior hand protection. Featuring a durable, liquid-resistant coating, they provide an excellent grip while ensuring hands remain dry in wet or challenging environments. The integrated knit wrist design offers a secure, comfortable fit that effectively keeps debris out during use.
