

# Waterproof Convex Head Push Button Switch

This is a waterproof push button switch with a convex red head. It features a normally open (NO) and normally closed (NC) contact configuration, providing versatile control options.

## ADDITIONAL IMAGES

## Product Overview

**Specializing in production of buttons and indicators since 1997**

Durable and reliable push button designed for harsh environments.

## Industrial Push Button Switch

The XDL22-CL4322 is a high-performance convex head push button switch engineered for demanding industrial control environments. Designed for reliability, it features a rugged construction capable of handling AC voltages up to 660V and DC circuits, making it ideal for signal control and emergency signaling. Its specialized silver alloy contacts ensure high resistance to electrical erosion, while the durable design provides robust ingress protection against dust and moisture.

## Electrical Ratings

Rated AC Voltage	660 V
Thermal Current (Ith)	10 A
Contact Configuration	NO, NC

### IP Protection Grade

IP40 • IP54 • IP65 • IP66 • IP67 • IP68

### Operating Temperature Range

-5°C to +55°C

### Relative Humidity

35-85% RH

### Fastening Torque

0.8 Nm

### Pollution Grade

3

## Certifications

### Standards Compliance
