

Waterproof Latex Abrasive Paper

This waterproof abrasive paper is designed for wet sanding and polishing of metal and non-metal products. It features a 15% latex base for increased flexibility.

Product Overview

Professional Grade Wet Sanding Abrasives

This premium C35P waterproof abrasive paper features a high-performance latex backing designed for superior flexibility and durability during wet sanding applications. Ideal for both metal and non-metal surfaces, it excels in demanding environments such as automotive body repair, machinery mold maintenance, and hardware finishing. The resin-over-resin bonding ensures consistent abrasive performance across a wide range of grit sizes.

Technical Specifications

Backing Material	Cwt 30% latex base paper
Abrasive Grain	Silicon carbide
Bonding	Resin over Resin
Available Grit Sizes	60, 80, 100, 120, 150, 180, 220, 240, 280, 320, 360, 400, 500, 600, 800, 1000, 1200, 1500, 2000, 2500, 3000

Applications

Primary Applications

- Automotive repair
- Machinery mold processing
- Hardware manufacturing
- Stone polishing
- Craftwork

Logistics

Packaging Standard

Packaging Level	Quantity
Bale	100 sheets
Carton	500 or 1000 sheets

Standard Sheet Size	230mm x 280mm
