Product Overview

Durable Industrial Lighting Solution

The Waterproof LED Batten is a robust and energy-efficient lighting solution engineered for demanding environments such as warehouses, car parks, and pedestrian walkways. Featuring a durable housing with an IP65 ingress rating and IK08 impact resistance, it provides reliable, maintenance-free operation even in humid conditions. With up to 50% energy savings compared to traditional lighting, this lamp offers both high performance and cost-effectiveness for professional applications.

Technical Specifications

Ingress Protection (IP)

IP65

Impact Resistance (IK)

IK08

Surge Protection

1.5 kV

Flame Retardant (Glow Wire)

850 °C

Operating Conditions

Operating Temperature

-20 to 40°C

Installation & Features

Installation Methods

- Ceiling mounted
- Suspended

Key Benefits

Energy Saving, Visual Comfort, Maintenance-Free, Easy Replacement

Applications

Recommended Applications

- Car Park
- Warehouse
- Pedestrian Walkways
