

# Waterproof LED Ceiling Fixture

This waterproof LED ceiling light is designed for both indoor and outdoor use. The integrated LED provides bright, energy-efficient illumination with a long lifespan and its diffused lens ensures even light distribution, minimizing glare and creating a comfortable ambiance.

## ADDITIONAL IMAGES

## Product Overview

### Professional Waterproof Lighting Solution

This waterproof LED ceiling light is engineered for high performance in demanding environments, offering an IP65 protection rating against dust and moisture. With an integrated 18W LED source, it delivers over 2000 lumens of bright, energy-efficient illumination suitable for bathrooms, kitchens, and covered outdoor areas. The fixture features an automatic motion and light sensing system that optimizes energy consumption by activating only in low-light conditions when occupancy is detected.

## Technical Specifications

### IP Rating

IP 65

### Available Color Temperatures

- 3000K
- 4000K
- 6000K

### Power Consumption

18 W

### Luminous Flux

2000 lm

### Input Voltage

85-265V 50-60Hz

### CRI

80

## Smart Features

### Detection Range Diameter

7 m

### Auto-off Delay

30 seconds

## Logistics and Customization

### Shipping Information

Metric	Value
Quantity per carton	30 pcs
Master carton size	690*470*330 mm
Lead time	30 days
