

Waterproof LED Driver Power Supply

This is a waterproof electronic LED driver. It has an input voltage of AC100-240V, an output voltage of DC24±1.2V, an input current of DC2.5A, a maximum output power of 60W, and an IP67 rating.

Product Overview

Professional Grade Waterproof LED Driver

This high-performance LED driver is engineered for reliability in demanding environments. Featuring a rugged IP67-rated waterproof housing, it ensures stable DC24V power delivery even in outdoor or humid conditions. The compact design supports a wide input voltage range, making it a versatile power solution for professional lighting installations.
