Waterproof Outdoor Binoculars

These waterproof binoculars offer exceptional optical performance for various viewing applications. They incorporate a central focusing system and utilize Roof/Bak4 prisms with fully multi-coated lenses for enhanced light transmission and image clarity.

Overview

Professional Waterproof Binoculars

These professional-grade waterproof binoculars are designed for demanding outdoor observation and optical performance. Available in two distinct configurations, they feature high-quality Roof/Bak4 prisms and fully multi-coated lenses to ensure superior light transmission and image clarity. Built for durability and precise viewing, these models provide reliable performance across diverse field conditions.

Optical Performance

Key Optical Specifications

10 x	42 mm	75 %
Max Magnification	Objective Diameter	Max Light Transmission

Comparison Table

Model Specifications

Model	Magnification	Objective	Field of View	Eye Relief
TS119-10X42DCF	10	42mm	5.5°	21.2mm
TS219-8X32DCF	8	32mm	7°	20mm

Technical Details

Prism Type	Roof / Bak4
Focusing System	Central Focusing
Lens Coatings	Fully Multi-Coated, Broadband Green Film, Silver-coated
