

# Waterproof PVC/Polyester Raincoat

This high-visibility raincoat is made from PVC/Polyester material, offering waterproof protection. It includes a drawstring hood, button-up closure, and long sleeves for full coverage.

## Product Overview

### Professional Waterproof Protection

This high-performance raincoat is engineered from a durable PVC/Polyester/PVC composite material designed to withstand harsh wet weather conditions. Featuring a 0.32mm thickness, it provides a robust barrier against moisture while maintaining flexibility for outdoor industrial tasks. Its comprehensive coverage and integrated hood ensure workers remain dry and protected throughout their shifts.
