

Waterproof Yellow Raincoat with Hood

This raincoat provides waterproof protection in wet weather. It is constructed from water-resistant material and features a hood with a drawstring closure and front button closure.

Product Overview

Professional Waterproof Protection

This high-visibility yellow raincoat provides robust protection against wet weather conditions. Designed for durability and functionality, it is constructed from 0.35mm thick PVC material. The design includes a protective hood with an elastic band and convenient storage features, making it a reliable solution for outdoor work environments and emergency preparedness.
