

Watertight Industrial Receptacle

This heavy-duty industrial receptacle is designed for harsh environments requiring watertight connections. Featuring a robust yellow housing and a protective hinged cover, it ensures reliable power delivery while preventing water and dust ingress.

Product Overview

Rugged Industrial Power Connectivity

This heavy-duty industrial receptacle is engineered to provide reliable power delivery in demanding environments where moisture and debris are constant challenges. Featuring a robust yellow housing and an integrated protective hinged cover, it ensures a secure, watertight connection that meets rigorous safety standards. It is an ideal solution for outdoor use or facilities exposed to harsh industrial conditions where durability is paramount.

Technical Specifications

Pole Configuration	3-Pole
Housing Color	Yellow

Key Features

Key Features	Watertight, Dust-resistant, Hinged cover, Heavy-duty construction, Outdoor rated
