

WD615 Euro 2 Diesel Engine

The WD615/Euro2 engine is a robust and reliable diesel engine designed for various heavy-duty applications. Featuring a six-cylinder in-line configuration, it delivers high torque and power output while adhering to Euro 2 emission standards.

Overview

WD615 Euro 2 Diesel Engine

The WD615 is a robust 10L diesel engine engineered for heavy-duty applications, offering a balance of high power and fuel efficiency. It features a wide maximum torque speed range of 1100-1600 r/min, ensuring excellent acceleration and gradeability. Designed for durability and performance, this engine meets Euro 2 emission standards while maintaining low fuel consumption levels.

Performance Metrics

Max Torque Speed Range

1100 r/min

Min Speed

1600 r/min

Max Speed

Lowest Fuel Consumption Ratio

193 g/kW.h

Technical Specifications

Emission Standard

Euro 2

Configuration

- Six-cylinder in-line configuration
- Direct injection system
- Turbocharged
- Advanced cooling system

Engine Displacement

10 L

Applications

Compatible Machinery

Heavy-duty Trucks, Buses, Industrial Machinery
