

Weatherproof Electrical Junction Box

This electrical junction box is durable and weatherproof, designed for outdoor or harsh environments. It is constructed from high-impact resistant plastic and provides a secure enclosure for electrical connections.

Product Overview

Reliable Protection for Outdoor Connections

This durable electrical junction box is engineered for outdoor and harsh environment applications, providing a secure, watertight enclosure for critical connections. Constructed from high-impact resistant plastic, it effectively shields electrical components from moisture, dust, and physical impact. With versatile knockout options, this box ensures easy cable entry and a reliable seal, making it an ideal solution for residential, commercial, and industrial installations.

Technical Specifications

Installation Features

- Multiple knockouts for cable entry
- Watertight seal capability
- Suitable for diverse environments

Material	High-impact resistant plastic
Key Protection Features	Weatherproof, Dust-resistant, Moisture-resistant, Impact-resistant

Applications

Suitable Environments

Residential • Commercial • Industrial
