Overview

Industrial Weatherproof Connection Solution

The AM series weather-proof plug is engineered for robust and reliable electrical connections in demanding industrial and outdoor environments. Its durable construction provides essential protection against dust and water ingress, ensuring long-lasting performance for power tools and transmission equipment. Featuring a secure locking mechanism and ergonomic design, it minimizes accidental disconnections while allowing for easy installation and removal.

Key Features

Ingress Protection

IP67 • Weatherproof • Dust-proof

Safety & Design

- Secure locking mechanism to prevent accidental disconnection
- Protective cover for water and dust resistance
- Ergonomic design for easy handling
- High-quality material construction

Technical Specifications

Comprehensive technical data for various pole and voltage configurations.

Rated Current Options

16 A

Minimum Current

125 A

Maximum Current

Model Specifications Reference

Current (A)	Poles	Voltage (V)
16	2P+E	220V-250V
32	3P+E	380V-415V
63	3P+N+E	220V-380V
125	3P+N+E	240V-415V

Voltage Range

110V-130V~, 220V-250V~, 380V-415V~, 220V-380V~, 240V-415V~

Available Poles

2P, 2P+E, 3P+E, 3P+N+E

Applications

Recommended Applications

- Electric power tools
- Industrial power distribution
- Outdoor electrical installations
- Commercial transmission equipment
