

# Weatherproof Outdoor LED Flood Light

This LED flood light is designed for both indoor and outdoor use, offering a robust and energy-efficient lighting solution. It provides bright, uniform illumination and features an adjustable mounting bracket for optimal light direction.

## Overview

### High-Performance Lighting Solution

This LED flood light is engineered for both indoor and outdoor environments, offering reliable performance and bright, uniform illumination. Its robust, weather-resistant housing ensures durability in challenging conditions while energy-efficient LED technology helps minimize long-term maintenance costs. Designed for versatility, the unit features an adjustable mounting bracket that allows for precise light direction and optimal coverage.

## Key Features

### Build Quality

Weather-Resistant • Robust Housing

### Ideal Applications

Security Lighting, Landscape Lighting, General Area Illumination, Indoor Use, Outdoor Use

## Technical Specifications

### Performance Highlights

**1 High**

Energy Efficiency

**1 Low**

Maintenance

### Installation Options

- Adjustable mounting bracket
- Versatile installation angles
- Optimized light direction
