Product Overview

Professional Perimeter Security

This welded steel wire mesh fence offers a high-performance solution for security and boundary demarcation. Engineered for durability, the rigid mesh panel design provides excellent resistance to intrusion while maintaining visibility. With its protective powder or PVC coating, the fence ensures long-term weather resistance and corrosion protection, making it ideal for residential, commercial, and industrial properties.

Technical Specifications

Mesh Size	50x100mm
Wire Diameter	4 mm
Total Height	2 m
Post Spacing	2.5 m

Design and Build

Added Security Options

- Barbed wire extension
- Vertical bar extensions
- Rigid mesh panel design

Material	Welded Steel Wire
Finish	Green, Powder Coated, PVC Coated

Applications

Suitable Environments

Residential • Commercial • Industrial
