

Welding and Cutting Torch Kit

This comprehensive welding and cutting torch kit is designed for various metalworking applications. The kit includes a cutting torch handle, welding nozzles, oxygen and acetylene regulators with gauges, a length of hose, safety goggles, and a spark lighter for user protection and convenience.

Overview

Professional Metalworking Solution

This comprehensive welding and cutting torch kit is engineered for versatility and durability in various metalworking applications. Constructed from high-quality brass and steel components, the system ensures reliable performance for industrial tasks. The kit comes fully equipped with essential accessories including regulators, hoses, and safety gear, providing an all-in-one solution for professional welding and cutting needs.

Technical Specifications

Kit Contents

- Cutting torch handle
- Welding nozzles
- Oxygen regulator with gauge
- Acetylene regulator with gauge
- Hose set
- Safety goggles
- Spark lighter

Application Suitability

Welding • Cutting • Metalworking

Construction Materials

Brass, Steel
