Product Overview

Professional Welding Protection

These welding gloves are engineered for reliability in demanding mechanical and welding environments. Featuring an AB grade cowhide split leather palm and a durable canvas back, they provide essential protection against sparks and heat. The design includes a rubberized safety cuff and shirred elastic for a secure fit that keeps debris out while maintaining dexterity.

Technical Specifications

Compliance Standards

CE • EN420 • EN388

Model Number	HDP302YE
Material Composition	AB Grade Cowhide Split Leather, Canvas
Length	10.5 inch

Design & Features

Cuff Design	Cotton-blend canvas rubberized safety cuff
Fit Adjustment	Shirred elastic wrist

Usage & Care

Intended Use

- Mechanical risks
- General use in dry environments
- Welding and metalworking

Storage Conditions	Store in a cool, dry, ventilated and secure place.
Safety Limitations	Not for use with chemical, microbiological, electrical or thermal hazards.
