Product Overview

Professional Welding Protection

These welding gloves are engineered for superior hand and forearm protection in demanding industrial environments. Constructed from high-quality split cow leather, they provide exceptional resistance to heat, sparks, and abrasion. The extended gauntlet cuff design ensures comprehensive coverage, while the reinforced palm enhances grip and dexterity for precision tasks.

Material & Construction

Material	Split Cow Leather
Lining	100% Cotton
Reinforcement	Yellow Reinforce Palm

Design & Dimensions

Cuff Style	Straight Extended Gauntlet
Length	40 cm
Color	Blue, Yellow

Logistics & Packaging

Package Quantity	12 Pairs per Bag
------------------	------------------

Key Features

Suitable Applications

- Welding
- Cutting
- Grinding
- Industrial Metalwork
