

Welding Torch Consumable Kit for CB50 Torches

This is a comprehensive kit of replacement parts for CB50 series welding torches. The kit includes electrodes, tips, and a shield cup to ensure optimal performance.

Product Overview

Comprehensive Consumable Kit for CB50 Torches

This comprehensive replacement kit is specifically engineered for CB50 series welding torches, providing all essential components required for maintenance and optimal performance. The set includes a variety of electrodes, tips, and a shield cup to ensure consistent, high-quality welding results. Designed for durability and precision, these consumables help extend the longevity of your welding equipment and maintain operational efficiency.

Kit Contents

Included Components

Item ID	Component Name
E2001	CB50 Electrode
T4001	CB50 Tip
E2001L	CB50 Long Electrode
T4001L	CB50 Long Tip
S3001	CB50 Shield Cup

Compatibility

Compatible Torch Series	CB50, P50
