

Wet and Dry Vacuum Cleaner with 30L Capacity

This wet and dry vacuum cleaner is a versatile cleaning appliance designed for both wet and dry applications. It features a powerful single motor and a 30L capacity, making it suitable for various cleaning tasks.

Technical Specification		
Item	Wet and Dry	Dry
Function	Wet and Dry	Dry
Capacity	30L	30L
Max Power	1200W	1200W
Max Voltage	220V-240V	220V-240V
Tank Diameter	320mm	320mm
Hose Diameter	38mm	38mm
Noise Level	70-73dB(A)	70-73dB(A)
Cooling Mode	Circulating air cooling	Circulating air cooling
Max Air Flow	53 L/S	53 L/S
Max Suction	18KPa	18KPa
Max Motor	1200W	1200W
Max Hose Diameter	38mm	38mm
Max Hose Length	12m	12m
Max Hose Weight	1.2kg	1.2kg
Max Hose Diameter	38mm	38mm
Max Hose Length	12m	12m
Max Hose Weight	1.2kg	1.2kg
Max Hose Diameter	38mm	38mm
Max Hose Length	12m	12m
Max Hose Weight	1.2kg	1.2kg

Overview

Versatile Cleaning Performance

The ZD20 Series is a high-performance wet and dry vacuum cleaner engineered for professional cleaning environments. Featuring a robust single-motor design, this unit efficiently handles both liquid and solid debris, making it an ideal choice for car detailing, facility maintenance, and general commercial cleaning. With its 30L capacity and durable construction, it provides the reliability needed for demanding daily tasks.
