

Wet and Dry Vacuum Cleaner with Stainless Steel Tank

This vacuum cleaner is designed for both wet and dry cleaning. It features a stainless steel tank and a powerful motor for efficient suction.

Product Overview

Versatile Cleaning Solution

The DW-30L is a high-performance vacuum cleaner engineered for both dry and wet cleaning applications. Featuring a robust stainless steel tank, it offers exceptional durability and corrosion resistance for demanding environments. Its powerful suction motor and mobile wheel-mounted design make it an ideal choice for household, commercial, and industrial cleaning tasks.
