

Wet/Dry Vacuum Cleaner with Blower

This wet/dry vacuum cleaner features a blower function and a 2-gallon capacity. Operating at 230V~50Hz and 400W, it is suitable for both wet and dry vacuuming tasks.

Overview

Versatile Cleaning Solution

This compact wet/dry vacuum cleaner is engineered for efficient debris removal in various environments. Featuring a dual-function design, it serves as both a powerful vacuum and a blower for added utility. Its portable construction and durable build make it an ideal choice for professional cleaning tasks where space and maneuverability are critical.
