

# Wheel Alignment Car Clamp Turntable

This car clamp turntable is designed for 3D and CCD wheel alignment systems. It ensures accurate and efficient wheel alignment, contributing to improved vehicle handling and tire longevity.

## ADDITIONAL IMAGES

## Product Overview

### Professional Wheel Alignment Clamps

These precision-engineered car clamps are designed for compatibility with both CCD and 3D wheel alignment systems. Built for durability and reliability in professional automotive service environments, they feature adjustable clamping mechanisms to securely accommodate a wide range of wheel sizes. This tool ensures accurate and efficient wheel alignment, which is critical for improved vehicle handling and extended tire longevity.

## Technical Specifications

Rim Diameter Range	12 - 24 inches
Central Hole Diameter	15 mm / 16 mm (optional)
Clamping Jaw Dimensions	14.8 x 88 mm
Compatibility	CCD Wheel Aligner, 3D Wheel Aligner

## Package Contents

### Included Components

Part Name	Quantity
Clamp	1 set (4 pcs)
Clamping jaw	16 pcs
Safety rope	4 pcs

## Logistics and Packaging

### Weight Metrics

**16 kg**

Net Weight

**18 kg**

Gross Weight

### Packaging Dimensions

540 x 520 x 300 mm

### Volume

0.08 CBM

## Certifications and Warranty

### Certifications

CE Certified

### Warranty Period

12 months
