

Wheel Loader Transmission Step Selector

This step selector is designed for use in wheel loader transmissions. It ensures smooth and precise gear changes.

Product Overview

Transmission Step Selector 3901000049

The 3901000049 Step Selector is a vital component for construction machinery transmissions, specifically engineered for compatibility with various wheel loader models. Built to rigorous quality standards, this unit ensures reliable gear selection performance. It features a robust design suitable for demanding operational environments.

Technical Specifications

Part Number	3901000049
Product ID	6006
Rated Voltage	24 V

Compliance and Standards

Certifications	CE, ISO
----------------	---------

Service and Support

Service Policies

- Detailed pre-shipment inspection with photo/video proof
- 100% compensation for incorrect parts or transit damage
- Export standard packaging
- Lifetime after-sales service

Warranty Period	6 months for main spare parts
