Product Overview

Heavy-Duty Wheel Spider Assembly

This wheel spider is engineered for heavy-duty trailer axle applications, specifically designed to support load capacities of 12T, 14T, and 16T. Constructed using high-strength casting processes, it provides reliable load distribution and durability under demanding operating conditions. The component features precision-machined surfaces to ensure an accurate fit, contributing to enhanced vehicle stability and safety.

Technical Specifications

Manufacturing Standards	ASTM, AISI, DIN, BS, JIS
Dimension Tolerance	CT5
Max Casting Size	1200 mm
Casting Weight Range	0.2 - 1000 kg

Compatibility & Variants

Available Configurations

Application	Load Capacity	Wheel Size
Front Wheel Spider (New)	N/A	N/A
Front Wheel Spider (Old)	N/A	N/A
Front Wheel Spider	12 Ton	20"
Front Wheel Spider	14 Ton	20"
Front Wheel Spider	16 Ton	20"
Front Wheel Spider	12 Ton	24"
Front Wheel Spider	14 Ton	24"
Front Wheel Spider	16 Ton	24"
