

Wheel Tractor for Agricultural Applications

This wheel tractor is designed for agricultural applications, featuring a powerful engine and sturdy chassis. It is equipped with essential controls and a comfortable operator station for efficient and reliable operation in plowing, tilling, and other farming tasks.

Overview

High-Performance Agricultural Tractor

This robust wheel tractor is engineered specifically for demanding agricultural applications. It features a powerful engine and a durable, heavy-duty chassis designed to provide consistent performance across various field conditions. With an ergonomic operator station and precision controls, this machine ensures efficiency and reliability for essential farming tasks such as plowing and tilling.

Technical Specifications

Design Features

- Powerful combustion engine
- Sturdy reinforced chassis
- High-traction agricultural tires
- Ergonomic operator control station

Construction Standard

Heavy-Duty • All-Terrain Ready

Applications

Plowing, Tilling, General Farming
