

Wheel Tractor for Agriculture

This wheel tractor is designed for agricultural applications. It features a heavy-duty chassis and large, treaded tires for optimal traction.

General Overview

Rugged Agricultural Tractor

This wheel tractor is engineered for high-performance agricultural work in demanding field conditions. Built with a heavy-duty chassis and powerful engine, it offers the durability and raw power required for intensive daily operations. The design prioritizes functional reliability, featuring large treaded tires for superior traction and a straightforward control layout for ease of operator use.

Technical Features

Focus Areas

Durability • Field Performance • Functional Simplicity

Design Features

Heavy-Duty Chassis, High-Traction Tires, Robust Engine Design, Agricultural Optimized
