

Wheeled Dry Chemical Fire Extinguisher

This wheeled fire extinguisher is designed for suppressing fires. It uses a dry chemical extinguishing agent and is suitable for Class A, B, and C fires.

Product Overview

Industrial Fire Suppression

These wheeled dry powder fire extinguishers offer a robust solution for large-scale fire safety requirements in industrial and commercial settings. Available in capacities ranging from 25kg to 100kg, they provide a reliable defense against Class A, B, and C fires. Their wheeled design ensures high mobility for rapid response, while the high-performance extinguishing agent and stable pressure levels ensure effective suppression.

Technical Specifications

Available Capacities

- 25kg
- 50kg
- 75kg
- 100kg

Working Pressure	12 bar
Test Pressure	21 bar
Material Grade	B440HP

Performance Metrics

Key Performance Indicators

30 s

Minimum Discharge Time

6 m

Minimum Bulk Range

Compliance and Standards

Standards and Certification	CE Standard, Normal Standard
