

Wheeled Fire Extinguisher Hose and Horn

This is a replacement hose and horn assembly for wheeled dry powder fire extinguishers. It is designed for efficient discharge of extinguishing agent with accurate aiming.

Product Overview

Industrial Fire Safety Component

This high-quality hose and horn assembly is specifically designed for use with wheeled dry powder fire extinguishers. Engineered for durability and reliability, it ensures an efficient discharge of extinguishing agents for effective fire suppression in demanding industrial and commercial environments. The robust design allows for accurate aiming, providing professional-grade performance when safety matters most.

Technical Specifications

Model Number	XHL02020
Materials	Brass, Rubber, Plastic
Application	Wheeled dry powder fire extinguishers

Compliance and Standards

Certifications
EN3 • CE • ISO
