

Wheeled High-Pressure Washer

This portable high-pressure washer is designed for versatile cleaning applications. It features a compact and wheeled unit for easy maneuverability.

Product Overview

Professional Cleaning Performance

This portable high-pressure washer is engineered for versatile cleaning applications in both residential and commercial settings. Its compact, wheeled design ensures effortless maneuverability across various terrains, while the integrated high-pressure spray gun with an adjustable lance provides precise control. Equipped with a detergent dispenser and a durable power cord, this unit is an ideal solution for efficiently cleaning vehicles, patios, and other demanding outdoor surfaces.
