

White Leather Fingerless Cycling Gloves

These fingerless gloves are crafted from white leather, offering durability and a snug fit. They feature a breathable design with perforations and padded palms for comfort and shock absorption.

Product Overview

Premium Versatility

These stylish white leather fingerless gloves are designed for activities requiring superior grip and tactile feedback, such as cycling or driving. Featuring a breathable construction with strategic perforations, they ensure optimal ventilation during use. The open-finger design maximizes dexterity, while the padded palm offers essential comfort and shock absorption.
