

White Panel Security Door with Perforated Accent

This modern security door features a white panel design with horizontal rectangular insets and a narrow gray vertical section adorned with circular perforations. The frame is constructed from durable gray metal, providing enhanced security and a contemporary aesthetic suitable for residential or commercial applications.

Product Overview

Modern Security and Aesthetic Integration

This high-security door combines robust metallic construction with a sophisticated white panel aesthetic, making it an ideal choice for both residential and commercial spaces. Featuring a distinct vertical gray section with circular perforations, it offers a contemporary look while maintaining uncompromising structural integrity. Designed for long-term reliability, the unit includes integrated hardware such as a rectangular handle and a discrete peephole.
