

White PP Non-Woven Protective Coverall

This protective coverall is made from PP non-woven cloth, offering lightweight and breathable protection. The coverall provides a barrier against dust, dirt, and light liquid splashes and features a zipper front for easy donning and doffing.

Product Overview

Professional Protective Solution

This white PP non-woven protective coverall is designed for lightweight and breathable body protection in various maintenance and industrial environments. It features a convenient full-body design equipped with an attached hood, ensuring comprehensive coverage against dust, dirt, and light liquid splashes. With a user-friendly zipper closure and elasticated features for a secure fit, it balances safety, comfort, and ease of use for professional applications.
