

White Street Motorcycle with Storage and Windscreen

This is a street motorcycle designed for urban commuting. It is equipped with a front windscreen, side storage compartments, and a rear storage box.

Overview

Versatile Street Motorcycle

This street-ready motorcycle is designed for practicality and comfort, featuring a comprehensive storage system including side compartments and a rear storage box. Equipped with a front windscreen for improved aerodynamics and rider protection, it is an ideal choice for daily commuting or urban transport. The integrated speaker system and clear visibility features, such as the rear red light, enhance both utility and safety for the operator.
