

Wicker-Base Gas Fire Pit Table

This gas fire pit table features a tiled tabletop surface surrounding a burner area with decorative glass rocks. The base is constructed with a woven wicker-like material, making it suitable for patios and decks.

Product Overview

Sophisticated Outdoor Heating

This Wicker-Base Gas Fire Pit Table combines functional warmth with elegant design, making it an ideal focal point for any outdoor setting. Featuring a durable aluminum frame wrapped in UV-proof woven rattan, it is built to withstand the elements while maintaining its aesthetic appeal. The table offers a versatile dual fuel system, allowing for seamless operation with both Liquid Propane (LP) and Natural Gas (NG) sources.
