

Wide Blade Surface Scraper

This is a scraper. It has a wide stainless steel blade and a wooden handle, designed for removing paint, wallpaper, or other materials from surfaces.

Product Overview

Professional Wide Blade Surface Scraper

This wide blade surface scraper is engineered for professional surface preparation and material removal. Designed with a robust stainless steel blade and a comfortable wooden handle, it provides the necessary leverage for demanding tasks on walls and floors. The screw-attached construction ensures long-term durability and ease of use when removing paint, wallpaper, or stubborn residues.
